

# POST SEEDING FIELD WALK & COMMUNITY BBQ

7 JULY @ 3:30PM - 5:15PM ONWARDS  
KOJANEERUP SOUTH

Public event, all welcome

## FIELD VISIT: SITE 1

**Time:** 3:30 pm

**Location:** Just West of 315 Stirling School Road (google maps pin = [bit.ly/canolascf](https://bit.ly/canolascf))

**Description:** Hear from Reece Curwen on the logistics of growing the winter-type canola variety Hyola 970. This crop was sown in October last year and has had three grazing events to date. The paddock is now being 'locked-up' and taken through to grain harvest, where Reece hopes it will yield similarly to standard spring-type canola varieties. Dan McGrath from Pacific Seeds will also be attending to talk about Hyola 970 and other winter-type canola varieties in the pipeline.

*Proudly supported by*

## FIELD VISIT: SITE 2

**Time:** 4:15 pm

**Location:** Goad Family Farm, 2987 Chillinup Rd (google maps pin = [bit.ly/clayscf](https://bit.ly/clayscf))

**Description:** SCF have started a new project investment with the GRDC to improve the Clay spreading efficiency in the local area. SCF members are well aware of the benefits of applying Clay to their sandy duplex soils. However, the methods of determining the amount of Clay required to successfully ameliorate each paddock are ad-hoc and based on guesswork. Therefore, there is a high risk of under or over-applying Clay, which is both inefficient and potentially ineffective. Daniel Fay and Nathan Dovey will explain the key factors a grower needs to know to determine how much Clay they should be applying to their soil. Additionally, Josh and Tony Goad will show us their new machine for spreading Clay made locally by NuFab in Western Australia.

## FINAL STOP – SOCIAL DRINKS AND BBQ

**Time:** 5:15 pm onwards

**Location:** Bradshaw's place 3434 Chillinup Rd

**Description:** Enjoy a BBQ and drinks on us while catching up with local farmers and friends. Bovitech Veterinary Services will provide an update on local, seasonally relevant animal health issues for sheep and cattle.

TO RSVP TEXT SAM J 0422 3322 12 OR KELLY 0409 060 065
